ABOUT COMPANY

About GDA

The Global Distribution Alliance (GDA) is a partnership of over 100 leading logistics and transportation companies.

With operations throughout the world, the GDA is strategically positioned to provide swift and reliable global transportation solutions, with each member of the alliance providing an extensive coverage and expertise in each region of the world.

Together, the partnership provides total worldwide coverage and in depth local market knowledge, ensuring a consistent high quality service around the globe.

The GDA functions with unified organizational and operational procedures as well as uniformed quality of service standards.

The mission of the alliance is to connect strong national express service providers with each other; creating a cohesive and solid global distribution network, enabling each to provide their customers with worldwide delivery, and distribution services of express shipments in line with the traditional express integrators.

The GDA offers comprehensive tracking facilities utilizing the most modern Information Technology systems allowing alliance partners and their customers to track shipments anywhere in the world with the click of a button.

Global Network

The Global Distribution Alliance (GDA) brings together over 40 leading express and logistics providers from around the world, each specializing in its own region and together covering the world with the same, unified quality standards and technology. The network has more than 12,000 offices, 33,000 vehicles and 66,000 employees serving alliance customers and attending to their business around the clock in more than 240 countries.

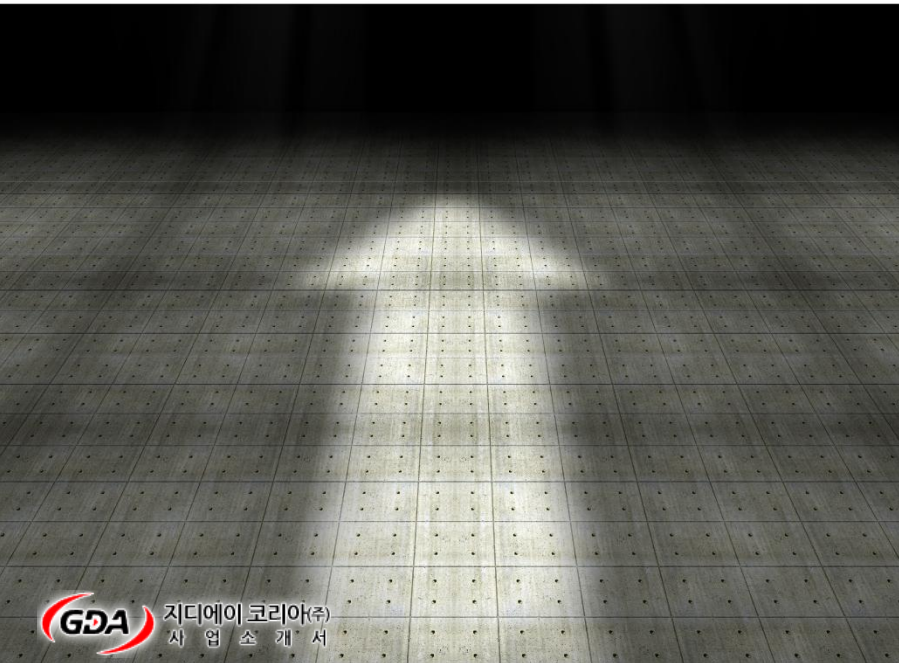

Quality

Improving processes, eliminating bottlenecks and increasing efficiency of daily operations is an ongoing cycle in GDA. We place high value on maintaining and enhancing quality in every facet of the organization. Therefore, we have designed and implemented a quality management system to ensure a consistent level of high standards at all times, and we evaluate these standards regularly and work on technological and process innovations to improve upon them.

Chapter 2

Service

- International Express
- Freight Service-Air
- Freight Service-Sea

Through an international network, you are provided with various convenient services, such as document express delivery service, non-document door-to-door delivery service, real-time tracking service, informing POD (proof of delivery) service via SMS or E-mail.

01 International Transportation

Through an extensive network and competitive shipping rates, GDA guarantees on time door-to-door delivery of your urgent documents to any worldwide destination.

03 Inbound

In addition to exporting, GDA enables you to import shipments from any destination in its global network to your doorstep.

02 Parcel Express

Your non-document shipments are specially package, swiftly shipped and attentively cleared through customs to arrive on time to any global destination.

04 Value Express

For your non-priority express shipments, GDA offers Value Express as a cost-efficient delivery alternative to suit your business budget.

01 Customs Clearance & Door Delivery

The multiple freight forwarding capabilities of GDA combined with its logistics, Customs clearance, warehousing and domestic distribution networks allow you to outsource the non-core supply chain tasks of your business to one company and to one delivery network; to GDA.

03 Cool Chain Management

GDA Perishables is a separate unit handling all kinds of perishable products like cut-flowers, fresh meat, dairy products, chocolates etc. This unit employs pioneering cool chain management procedures that maximize the retail shelf-life of products through state-of-the-art temperature monitoring, cooling techniques and timely deliveries to retail outlets.

02 Wholesale Co-Loading

For freight forwarders who do not have agents within the Middle East, South Asia and Europe, GDA makes its network available for providing origin or destination services to include consolidation, co-loading, Customs clearance, freight charges collection, etc.

04 Special Services & Project Management

GDA will customize transportation solutions to cater to the requirements of any special needs or project that customers might have.

Freight Service-Sea
